About the SAT . . .

The SAT critical reading section gives you a chance to show how well you understand what you read. There are two types of multiple-choice questions in the critical reading section:

- Sentence completion questions test your vocabulary and your understanding of sentence structure. (19 questions)
- Passage-based reading questions test your comprehension of what is stated in or implied by the passage, not your prior knowledge of the topic. (48 questions)

The mathematics section of the SAT contains two types of questions:

- Multiple choice (44 questions)
- Student produced response questions appear without answer choices. An answer sheet is used to "grid in" your solution. (10 questions)
